

No Gas For Your MPC? Call HBH.

HBH Gas Systems is the leader in central gas systems, bringing underground metered gas to Master Planned Communities of all sizes worldwide. Our piped systems fuel your MPC's full range of energy needs from a single, underground propane tank: from high-end appliances to alternative applications including gas lamps, outdoor kitchens, pool heaters, restaurants, spa facilities and even eco-friendly propane-powered fleet vehicles. Visit us at www.hbhsystems.com to learn how we can partner to provide your MPC with reliable, individually metered gas service - any time, any place.
